

UNIVERGE BLUE

Essential Business Cloud Services by NEC

Simplicity

It's the heart of moving to the cloud. With a cloud communications solution, the provider is responsible for the infrastructure – its development, maintenance, disaster recovery and business continuity features. Because it's all in the cloud, you simply pay for what you use.

Phone Services for the Small Business

Designed to fit the needs of small businesses, UNIVERGE BLUE Essential is a complete cloud-based VoIP phone system from a single provider. Everything you require in phone services when opening a new location, restructuring your current system or expanding your staff to meet your growing business needs.

Simplicity is the heart of the Essential package. No special training is required. Essential avoids complexity in favor of a reliable phone system that meets today's basic needs for a small business. Essential is an ideal phone services package for businesses with less than fifty employees.
