

UNIVERGE BLUE

Healthcare

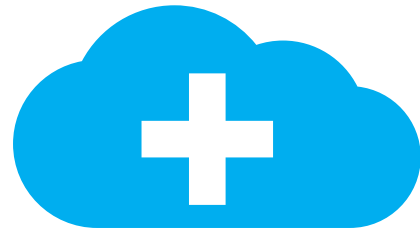

Cloud Communications for the Healthcare Industry

Sweeping changes in technology have revolutionized the healthcare industry, from medical treatments to record keeping and compliance.

UNIVERGE BLUE provides a cost-effective, flexible and easy-to-use communications solution that empowers healthcare workers and improves the patient experience.

UNIVERGE BLUE is a cloud-based, all-in-one solution, a single payment service that includes Voice, Mobility, Messaging, Presence, Conferencing, Contact Center, and a wealth of other communication features.

- Connect doctors and staff anywhere, anytime with any device
- Provide up-to-date information on employee status and availability
- Secure chat between doctors, caregivers and staff
- Secure remote conversations between doctors and patients
- Conferencing and collaboration for enhanced telemedicine
- Share records, video and images for secure consultations
- Connect to the right person at the right time
- Manage all voice, email and web services with a single, intuitive interface

Unified Communications in the Cloud

The federally mandated Healthcare Information Technology for Economic and Clinical Health (HITECH) Act is just one of a multitude of changes initiated by the digital age. These mandates can easily overwhelm the principle mission of the healthcare industry and drain resources from patient care.

Let UNIVERGE BLUE shoulder the burden of communications, leaving workers free to focus on healthcare.

UNIVERGE BLUE secures your communications infrastructure, and includes the highest levels of encryption and security protocols. Updates are made in the cloud without scheduling delays and without disruptions to the communications system.

Powerful Disaster Recovery applications for all communications and data provide a reliable, secure infrastructure in the event of unimaginable emergencies.

UNIVERGE BLUE is monitored 24 hours a day, 7 days a week, 365 days a year. Custom configurations are available to meet specialized and evolving compliance and security requirements.

A Trusted Partner

NEC is a global leader in communications technologies with a reputation for reliability, quality and customer satisfaction. UNIVERGE BLUE is backed by 100 years of experience and innovation in communications technology.
